

Services for exhibitors from CeBIT 2010 Partner Country Spain

The State of Niedersachsen's economic development agency NGlobal offers all exhibitors from Spain, CeBIT 2010 Partner Country, exclusive free consultation services to support their trade fair presence.

These services aim to connect exhibiting companies with interesting new contacts both before and during the fair, and help them generate further business relationships, mainly with enterprises and institutions from Niedersachsen who are also exhibiting or visiting at CeBIT. Three Niedersachsen stands will present around 60 of the State's enterprises and institutions: IT Services, Human Resource Management, the WEBCIETY-AREA, Job & Career Market and Learning & Knowledge Solutions are in Hall 6, Future Parc is in Hall 9, and the ITS Stand focusing on Intelligent Transport Systems is in Hall 7.

Interested Spanish companies can seek specialist individual advice from NGlobal staff before or during the fair about all the relevant issues of doing business in Germany and Niedersachsen. NGlobal also has extensive knowledge of the ICT sector, and offers support in entering the market and access to relevant stakeholders.

Enquiries with contact details should be sent by email to NGlobal cebit@nglobal.de or using the contact form <http://www.nglobal.de/en/trade-fairs/cebit-2010-anfrageformular/>.

During CeBIT, NGlobal staff will be available at 'ITS-Niedersachsen' (Stand A28 in Hall 7), and individual appointments can be arranged at other stands.
